

C-RADS Score for CT Colonography - Final Report

Patient Information

Identification Data

HRN: CRX00000001
 ID Card: Unknown

Personal Data

Gender: Male
 Age: 72

Polyps

Findings: Yes, several Polyps
 Morphology: Unknown
 Polyp Size (mm): Unknown
 Attenuation: Unknown
 Location: Unknown
 Polyps smaller or equal to 6 mm: 4
 Polyps between 6 and 9 mm: 2
 Polyps bigger than 9 mm: 2

Extra Colonic

Findings: Yes
 Gallbladder: Unknown
 Gastric: Unknown
 Liver: Cirrhosis
 Lungs: Unknown
 Lymphatics: Unknown
 Ovarian: Unknown
 Pancreatic: Unknown
 Prostate: Unknown
 Renal: Unknown
 Skeletal: Unknown
 Spleen: Unknown
 Uterine: Unknown
 Vascular: Unknown

CT Colonography Realization

Date: 02-03-2017

Masses

Likely Malignant: Yes

Outcome

Results

According to CT Colonography Information, there is a HIGH RISK (C-RADS Score = 4) of having COLORECTAL CANCER.

Comments

Potentially Important Extra Colonic Finding (Extra Colonic Score = E4). Communicate to referring physician as per accepted practice guidelines.

Conclusions

WE HIGHLY RECOMMEND SURGICAL CONSULTATION FOR AN ENDOSCOPIC BIOPSY, PURSUANT TO THE CT COLONOGRAPHY IMAGING REPORT AND DATABASE SYSTEM (C-RADS). MOREOVER, EXTRA COLONIC E4 SCORE MAY SUGGEST TO COMMUNICATE TO REFERRING PHYSICIAN AS PER ACCEPTED PRACTICE GUIDELINES.

This report has been generated from the data entered on 06-03-2017 13:36:18 UTC/GMT.

Disclaimer

Bioprognos has not developed the CT Colonography Imaging Report and Database System (C-RADS). C-RADS was developed in 2005 by the American College of Radiology (ACR) as a method -based in BI-RADS scheme for Breast Cancer evaluation-, to help in radiology findings classification. Its mission is to standardize the terminology and the systematic for the radiological report, by defining standard terms of lesion morphology along with lesion size and number, an overall category of disease severity may be assigned per patient, as well as assign the attitude that should be taken in each case. Beyond clarity of communication to referring physicians, this scheme also provides the foundation to better evaluate results in clinical research across different centers. Bioprognos has implemented it for training or educational purposes only. You assume total responsibility for your use.
